## Weather/Environmental Conditions Guidelines

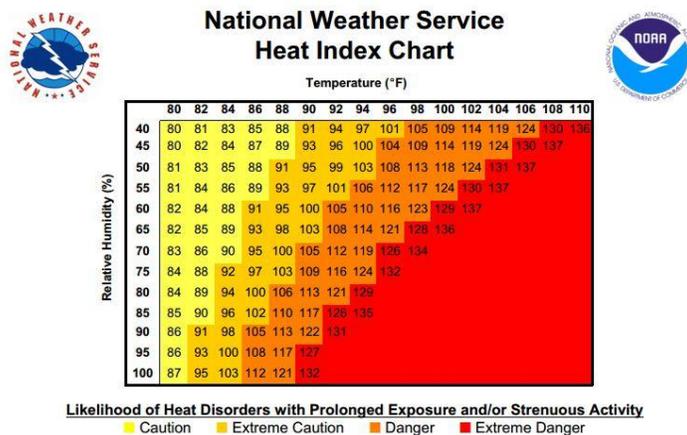

### Dallas Farmers Market Fieldtrips

This appendix is to protect the health and safety of the students while on fieldtrips at the Dallas Farmers Market. We acknowledge that local weather and environmental conditions are frequently at intensities that may result in health consequences, therefore we will take the following measure to protect the students, teachers, and chaperones.

In the event of concern for weather/environmental conditions on day of fieldtrip, a call and email will be made to the responsible party the morning of schedule arrival.

#### **Hot Weather:**

Everyone should be hydrated prior to the arriving at the Dallas Farmers Market. We shall provide a water on site for those attending the fieldtrip when the heat index is above 101.

#### **Air Quality Index**

When the air quality index is red, purple, or maroon, the field trip will be cancelled and rescheduled.

#### **Cold Weather**

Dress appropriately for cold weather as The Shed is an outdoor pavilion. The field trip will be cancelled and rescheduled if the temperature/wind chill is below 32 degrees on the day of the fieldtrip.

#### **Thunderstorms**

The buses can park close to The Shed, but will not be under the roofline. Plan ahead to keep the students dry as they walk from the bus to the pavilion. If lightning or thunder is present, the students will be asked to stay on the bus 15 minutes after the lightning has passed.
